| Team ID       | PNT2022TMID13629  |
| Project Name  | <b>Project – Traffic and Capacity Analytics for Major Ports</b> |
| Maximum Marks | 4 Marks   |

### Solution Architecture:

Solution architecture is a structural design that addresses a set of functional and non-functional requirements. It is immediately implemented as a program, project or change. This differs from enterprise architecture that may include long term road maps that take many years to implement.

### Example - Solution Architecture Diagram:

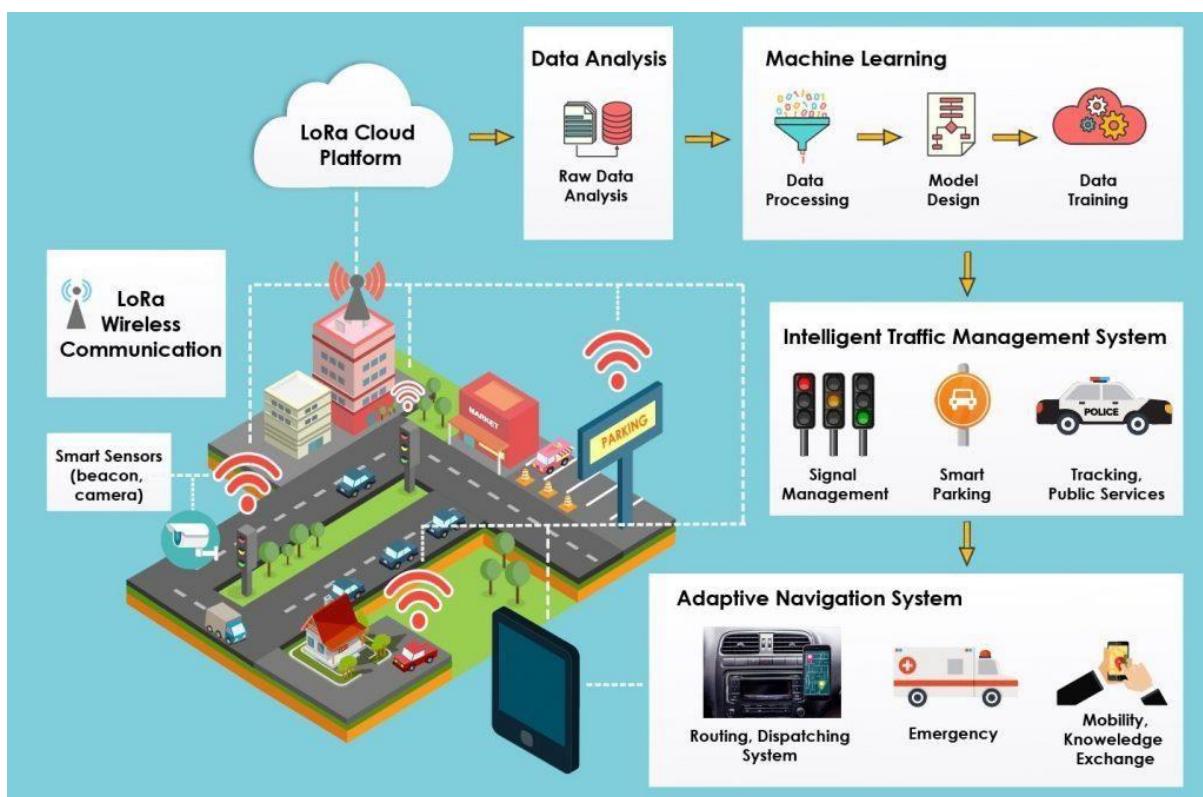

Figure 1: Architecture of traffic management application
